Large! Splendid! Astonishing!
AT THEIR OLD STAND,
NUMBER 11, SPRING STREET,
where supplies are to be weekly through the season
There is no use in trying to sell Dry Goods, Groceries, Crockery, Glassware &c. cheaper than we can sell them—it can't be done, no how! Thus unparalleled success of this establishment comes from the fact, that it is the BEST PLACE to buy
Honest Goods! Strong Goods!
Handsome, fast-colored, and fashionable, fresh from the Looms of the Manufacturers of every part of the world—Europe, Asia, Africa, and America—bought at a great sacrifice, and offered to the public at nearly their own prices.
Untiring industry and long experience, enables us to offer the most extraordinary temptations in every kind of
DRY GOODS, SILKS,
SATINS, DRESS GOODS, LINENS,
Cassimeres, Broadcloths, Sheetings, Shirtings, Domestics, &c,
by the yard, bale, bundle, box, cart load, car load or boat load, at prices lower than any house in the United States.
Family Groceries,
Choice and well selected—cheaper than the cheapest. "Low prices and entire satisfaction" is our motto—and we invite all just to drive down and see for themselves, and partake of bargains.
N. B. Our recent arrival of TEAS are pronounced to be entirely unequalled as to strength, flavor and cheapness; and our recent purchase of
China, Glass & Earthenware,
Will be found not inferior as to quality, style and price, to any in the city—to which we invite the inspection of our patrons and the public.

Co-Partnership.
THE undersigned have associated themselves together into a co-partnership, under the name of the
Wisconsin Leather Company,
TO DEAL IN
Hides, Leather, Shoe Findings, Oil, and all such articles as usually belong to this class of business. They have established an extensive
TANNERY AT TWO RIVERS,
one of the largest in the United States, equal in capacity to *two hundred and ninety-four* of the ordinary sized vats. In this mammoth establishment (into which they have introduced all the late improvements,) they intend to manufacture *ALL KINDS OF LEATHER*, including Spanish Sole, Leather, and also *superior quality of Tannage*, and thus expect to compete successfully in price and quality with the Eastern dealers. They will also keep on hand a full line of
EASTERN MANUFACTURED LEATHER
and thus be enabled to suit all who may favor them with their custom. As the aim of this company will be in some degree to supply the great and growing Leather trade of the West, and save consumers and dealers in Leather the expense and risk of going east for their stock, they have established their terms *CASH*, or its equivalent. By this rule of *Low Prices and Cash*, they hope and confidently expect to do business greatly to the advantage of their customers.
Their place of business is at the old stand of ATLIS & ALLEN, 149 East Water street, Milwaukee, Wis. N. B. The highest price in Cash paid for Hides, either at their Store in Milwaukee, or at the Tannery at Two Rivers.

FRIDAY AFTERNOON, MARCH 19.

Railroad Stocks for Banking.

We must confess that we, in common with many others, are becoming more favorably impressed with the plan for allowing Railroad Bonds to be used as part of a basis for banking. We read carefully the letter of Moses M. Strong upon this subject, and were strongly impressed with the reasonableness of his views. We have seen so many banking bases crumble away when the fabric was erected upon them, that we duly appreciate the importance of the utmost caution, in laying the foundation of a banking system. The safety of the bill holder should be the first object This should be secured at all events. But if this can be done in a way that shall encourage other important interests in the State, that way should be adopted. And we are inclined to think it can. It seems to us, by allowing the stock of Roads built to a certain length—say forty or fifty miles—taken at one half, or less if necessary, of its nominal value, to constitute a quarter or a half of the capital stock of the bank, that a system may be established which shall be safe for the bill holder, and yet induce Eastern capitalists to invest their funds in our Roads with a view of banking on the stocks. If these two objects can be accomplished, the advantages which would result to to the general interests of the State, are apparent to all. We need capital, and capital would thereby be attracted to our State. Avenues of trade and travel would be opened, the settlement and improvement of the country would be hastened, and as a matter of course all our interests benefited.

We understand that an attempt is being made to get such a provision incorporated into the law now before the Legislature. And we hope the members will give the proposition a careful examination before they reject it, if they reject it at all.

FOUND—On the 18th inst., about four miles from this city, at the junction of the Fond du Lac and Lisbon plank roads, an INFANT, apparently ten or fifteen days old, lying on the ground, exposed to danger, with nothing but rags to protect it from the cold. It was found about 7 o'clock in the morning, and probably had laid there all night, as its cries were heard the previous evening, and once in a while during the night, but were supposed to be made by cats. When found, a cat was lying on it, which might have helped to preserve its life as but few adult persons would have lived, thus exposed, during such a cold night.

LITERARY ADELPHI.—The Literary Adelphi meets this evening, as usual, in Prof. Buck's Collegiate Hall. The question for discussion is one of great interest, viz:

"Whether there should be such a thing as party in a republican government."

Lecture, by N. Davison, on "Society."

A CARD.—The members of the Hibernian Mutual Benefit Society, return their sincere thanks to Mr. J. S. Fillmore, for the very efficient assistance rendered to them on the occasion of their late Anniversary. Also to Messrs. Geo. Hyer, of the Commercial Advertiser; King & Co., of the Sentinel; S. M. Booth, of the Free Democrat; Cramer & Co., of the Wisconsin; and Wilson & Hamilton, of the Journal, for their liberality to them on the same occasion, and to their guests generally, who met with them in celebrating their Anniversary. P. McDONOUGH, Pres't.

Robert Leach, Sec'y.

H. & T.—MILWAUKEE CIRCLE, No. 3, BROTHERHOOD OF THE UNION, will meet at their room, corner of Wisconsin and Main streets, this evening. A full attendance is requested.

CONCERT OF THE RAYMOND FAMILY.—The Concert at Gardiner's Hall, last evening, passed off quite agreeably. The music, both vocal and instrumental, was rendered in a style which seemed highly gratify all present. Mr. Raymond's Anecdotes, &c., were received with evident *gusto*.

After the Concert was through, Mr. Gardiner brought out his huge "Grab Bag," and distributed the *presents* therein to the ticket holders, who, like children, were very eager to receive them, some of them being hardly willing to wait till their turn came.

PANORAMA OF THE HUDSON.—This magnificent specimen of art will be exhibited at Gardiner's Hall, this evening. The Raymond Family give a Concert first, which will close at an early hour.

We advise those who have never had the pleasure of seeing the Hudson and the rich scenery along its banks, to attend. If the representation be a correct one—and we believe it is—it will be really worth seeing.—Those who have had the privilege of seeing this part of the world, will need no urging to induce them to attend. Scenes and views in Virginia will likewise be exhibited.

☞ The Legislature is wording away on the Bank Bill and sundry other matters, of not very great interest. It is laboring hard to fix the time when it will stop laboring.—We see that Mr. Phelps has introduced a bill to repeal the Act for the Construction of a bridge across Milwaukee River. It is not stated what bridge, but we suppose it is the one now building where the "Red Bridge" once was. If so, while Mr. Phelps is trying to repeal the Act, some of his constituents seem to have an idea of repealing the bridge itself.

☞ A company of 42 persons lately arrived at St. Louis, from California, with $200,000.

RAILROAD GRANTS.—We received from Mr. Kilbourn a note yesterday, after it was too late to reply to it in our issue of that day, asking if the proviso to prevent monopoly, which we suggested should be attached to all grants of land for Railroad purposes, could not be effected by State Legislation after the grants were made. We think it might, if the grants should be made to the States, giving them a discretion to impose such restrictions and conditions as they should think best, in appropriating the lands to the respective companies. But if given to the States as mere trustees, without giving them, either expressly, or by implication, any such discretionary power, we doubt whether a State could impose any conditions or limitations not necessary or proper for a due execution of the trust. We are not familiar with the exact form of the grants which they are asking for. But whatever it may be, we only wish that, if such grants are made, they may be so regulated, either by the General or State governments, we care not which, as to prevent land monopoly and land speculation, which we consider as the greatest evils that could be inflicted on our State.

LOSSES BY THE FIRE AT PORT WASHINGTON.—The losses by the late fire at Port Washington, as given by the *Blade*, are as follows:

The store and goods of Mr. W. Lyon were damged $800. No insurance. Mr. Lyon is postmaster and lost everything pertaining to the office—not even a mail bag was saved.

Two other stores, owned in Cleveland, O., were injured to the amount of $1600. Not known as to insurance.

W. A. Lawrence lost in provisions, groceries, &c., $5000. Insured $2000 in the Milwaukee Merchant's Mutual, and $1100 in a Utica Company.

Mr. Kildahl, merchant, insured $1500 in Ætna Company, which covers his loss.

Leland Stanford, lawyer, lost $1000 worth of books, &c. No insurance.

The furniture, regalia and fixtures of the Odd Fellows' Lodge were all destroyed. Estimated loss, $300. No insurance.

A building owned by Carl Otto Guenther, and worth $1000—"his all"—was entirely consumed. No insurance.

The sides of the store of Messrs. Whedon, Porter & Co., were charred to a coal in many places, but by great exertions the fire was finally extinguished.

DEATH OF DR. DUNCAN.—Hon. Alexander Duncan, for several years a member of Congress from Hamilton Co., Ohio—notorious at that time for his blackguard speeches, spiced with medical slang, yet not without talent and sharpness, also for his dissipated conduct, his skill in fencing, and a propensity for sporting,—was accidentally drowned on the 9th inst., while in pursuit of game at the Red Banks, on the Little Miami, about eight miles from Cincinnati. He shot a duck in the centre of the stream, and then divested himself of his clothes and plunged in after it. He reached the duck, and turned for the shore but his strength gave out before reaching it. His body had not been recovered.

SYMPTOMS OF ADJOURNMENT.—The correspondent of the *Sentinel*, at Madison, states that the Assembly has passed a resolution not to receive any new business after the 28th.

CAPITAL PUNISHMENT.—The following vote in the Assembly on the engrossment of the bill abolishing Capital Punishment we cut from the correspondence of the *Sentinel*.—We only hope the fears expressed may be well founded:

The bill abolishing Capital Punishment, and making the penalty imprisonment for life instead, was ordered engrossed by the following vote:

Ayes—Abbott, Bancroft, Barlow, Botkin, Briggs, Burgess, Clemons, Cooper, Cramond, Fellows, Gordon, Green, Hackett, Hasso, Hoyt, Johnson, Lawrence, Mead, Monroe, Moore, Peak, Pierce, Phelps, Richardson, Ricker, Safford, Sholes, Skinner, Staats, Strong, Sugden, Utley, Van Nostrand, Weil.—35.

Noes—Averbeck, Beck, Burnham, Cain, Cate, Catton, Conger, Donaldson, Earnest, Fyffe, Graham, Hummelt, Hilliard, Knoell, Kinney, Lewis, Maxon, McNaughton, Mott, Patch, Powers, Ramsey, Root, Sterling, Tony, Wood, Worthington, Shafter—28.

This vote indicates, I am sorry to say, the passage of the bill in the House, though it may be that some of those who voted for the engrossment, will not favor its final passage."

SENATOR RHETT.—An exchange says; "The Boston Post thinks that Senator Rhett, of South Carolina, gives in to the 'higher law,' in putting his refusal to challenge Clemens upon the ground that he is a Christian. The lower law, that members shall not be called to account for words spoken in debate, is not thought of."

The Sea Serpent Hoax.—The best part of the sea serpent story started by the Tribune, is that the crew of the Gipsey, of Bridgeport, Conn., by which vessel it is pretended the letter of Captain Seabury, was brought to this country, declare that they never fell in with such ship as the Monongahela, at least so says the Bridgeport Standard.

Bacon said that the youth of a great man is of more importance to know than his after history, for the one foreshadows the other more infallibly than it is ever related—like the beginnings of a river as it springs from the mountain sides; if we know the geography of a country, and stand at the river's source, we can tell where it will flow.

☞ The body of a drowned man was taken from the river at Chicago yesterday morning.

Changeable Weather.—On Tuesday noon the mercury stood at 60 degrees above zero—on Wednesday morning it was 10 deg. above; making a change of 50 deg. during that time.—*Kenosha Tel.*

Michigan Central College.—This Institution at Spring Arbor, Jackson County, Michigan, now in the 3d year of its existence, contains 254 students, and is said to be in a very flourishing condition.

HOW FAR A MAN MAY GO IN SELF-DEFENCE.—The Supreme Court of Ohio, has lately decided a case of murder in the Second Degree, which was taken up on error, in which it settles the following points:

4. D. with his fist assaulted S. in the street. S. instantly stabbed him in five places, of which wounds he died. There was no evidence to prove that S, when he gave the fatal wounds, was in danger of loss of life, or limb, or great bodily harm, or that he had a reasonable apprehension of such danger.—*Held*,

That the killing was not excusable homicide *se defendendo*:

5. Where the slayer seeks and provokes an assault upon himself, in order to have a pretext for stabbing his adversary, and does upon being assaulted stab and kill him, such killing is not excusable homicide in self-defence.

6. A person assaulted may repel force by force, but it does not follow that he may, without necessity, use a deadly weapon for that purpose. And he was yet more unjustifiable if his weapon was concealed.

7. It is not error to charge a jury "to take into consideration the manner by which and purposes for which, the prisoner had the possession of the knife with which he committed the homicide."

SYNOPSIS OF CONGRESSIONAL NEWS.—*Senate.*—Mr. Badger—Is there a report in this case?

The President—There is.

Mr. Underwood—I should like to hear it read.

Mr. Wade—Then I withdraw my motion.

Mr. Broadhead—That is true.

Mr. Bayard—That is the fact.

Mr. Underwood—Then I think the bill ought to lay over.

Thereupon the Senate adjourned.

House—Mr. Fowler—I object to the amendment and call for the question.

Mr. Cobb—One word more.

(Cries of order, order, order.)

Mr. Cobb—I have not exhausted my five minutes.

Mr. Fowler—I call the gentleman to order.

Mr. Cobb—I care nothing about it.

(Loud cries of order)

Pending which the house adjourned.

The above is a fair abstract of the proceedings in Congress for the past few weeks; and will, no doubt, be instructive and gratifying to the people at large. It is to us.

REPORT ON THE MAINE LAW IN NEW YORK.—The Special Committee of the New York Assembly, to which was referred the petitions for, and remonstrances against the Maine Law, reported in favor of the Law.—The Report closes as follows:

The petitioners, to the number of several hundred thousands, represent a vast body of our citizens in all ranks of society, who will sustain the law demanded, and on their side is every consideration of good morals and sound policy. Your committee have carefully examined the employment and pursuits of those petitioning for, and those remonstrating against this law. Of the latter, numbering several thousand, a large portion are believed to have, directly or indirectly, a pecuniary and selfish interest in the traffic to be suppressed, or are its customers or employees. They submit how much such an opposition should weigh against the disinterested multitude who ask for the law.

Your committee are aware, too, that many of those petitioning are women. So far from this being an objection, it is a strong argument in favor of the law. No class suffer so much and so directly from the traffic as they. The wages which should support them and their families, too frequently go to brutalize their husbands and swell the profits of the seller of intoxicating drinks, whose remonstrance is a virtual petition that he may be still allowed to beggar and crush women and children, by selling intoxicating drinks to besotted husbands and fathers.

Your committee believe the time has come when the question must be met. On the side of the remonstrance is capital; on the side of the petitioners are virtue and intelligence.—Appealed to by suffering, poverty and crime, it remains to be seen which will be listened to. In response to the latter, and in the belief that the legislation asked for is the only one of any use which can and will be sustained, your committee recommend the following bill:

EPHRIAM L. SNOW,
JOHN WHEELER,
ALFRED N. HANER.

COURT STYLE AT WASHINGTON.—The correspondent of the Cleveland *True Democrat*, giving an account of the last Presidential Levee, makes the following comments:

"The assembly was not so "*brilliant*" as I have seen on former occasions. The complaint is made now by the "exquisites," the "upper ten," that the Presidential Levees are becoming *too common*. They will have to withdraw their presence, unless there can be some way, or means devised, to prevent those going who are not dressed in the "*Court style*."

I wish I could describe it minutely, which I cannot. Some of the more prominent features, in "the style," such as would strike the eye of one who is not a close observer of such things, I will give you. To commence with the gentlemen. They must have a blue dress coat with bright buttons, white vest and gloves, and *hair on the upper lip*. The ladies must have arms, and necks and shoulders bare, down—I will not say how far—sufficiently low, however, to permit their sharp shoulder blades to protrude over, as a warning to those behind to keep at a respectful distance. They don't all have sharp shoulder-blades, bless them, no! but then some of them have, and they must *all* follow "*the style*."—And then they must all have a long train sweeping behind them, which the "aforesaid" shoulder-blades protect from intruders. I don't pretend to be a judge of what is proper and becoming in ladie's dress, but this much I think I may safely say, that whenever a lady dresses herself, in such a way, as to shock, and disgust, every modest and pure-minded man, her mode of dressing must be in bad taste."

Going it Blind.—The Editor of the Ohio Statesman says he was quite disappointed with the performance of the Black Swan, until he listened with his *eyes shut*, when he became convinced that her tones were not inferior in power or sweetness, to those of Madam Bishop or Jenny Lind. Wonder if colonizationists couldn't take a hint from this successful experiment. Just shut their eyes, when they meet or talk with a black man, and thus save the expense of transporting him to Liberia.—*Anti-Slavery Bugle.*

In 1825, we imported nearly all our lead, being 6,000,000 lbs. In 1835, we imported 1,000,000 lbs. The domestic product now supplies the consumption.

Melancholy Occurrence at Geneva.

We are indebted to Hon. C. M. Baker, for the following particulars of a melancholy event which transpired in the village of Geneva, Walworth co., on the morning of the 15th inst.

"I have to inform you of a most horrible affair which transpired in this village at half past seven o'clock this morning. At that hour, Russell H. Mallory, a merchant, and one of our most respectable citizens, put an end to his existence by blowing out his brains in the back office of his store. The weapon used was a powerful English duelling pistol, recently brought from California. No one else was in the store at the time, but indications clearly showed that the pistol was very heavily charged, that the muzzle was placed against his forehead just over the right eye, that he stood facing a looking glass, and in that position the pistol was discharged. It would seem the charge chiefly exploded after entering the skull, tearing off all its upper and right surface and literally emptying it of its contents, scattering the brains in all directions about the room and bespattering the walls and ceiling. The explosion of a shell in the brain could not have produced a more terrific effect. The scene presented, as he lay in his bloody gore, was too awful for description. It produced a thrilling shock throughout this community. He has left an amiable wife and three lovely children overwhelmed with grief. May the God of the widow and the fatherless sustain them.

The cause of this sad act was doubtless despondency of mind arising from ill health.—His pecuniary circumstances were good.

From the testimony elicited before the coroner's jury, the act had evidently been premeditated for some time, and was feared by his wife. Alas! for poor humanity.—*Commercial.*

RETURN OF GEN. GILMAN.—Gen. John C. Gilman, who left this village about three years ago for California, returned on Wednesday of last week. We never saw him looking more robust, and he assures us that he never enjoyed better health than while in that country. He thinks the climate of California is incomparably better than that of any other portion of the United States, and were a larger portion of its soil adapted to agricultural purposes, he should not regret the heavy emigration now setting in that direction; but as the mining business is becoming precarious, and every branch of trade is already full, he is confident that a large proportion of the emigrants of 1852, are not only doomed to disappointment, but that they will, before being in the country three months, suffer for even the necessaries of life. The large addition to the population of the country the present season, will have the three-fold effect to lessen the profits of mining; to reduce the price of labor, and to increase the price of provisions. —*Watertown Chron.*

AMOUNT OF FOOD REQUIRED BY ANIMALS.—Of hay, an ox requires two per cent a day of his live weight. That is, if the ox weighs 2,000 pounds he requires 40 pounds of hay. If he is working, he will take two and a half per cent. A milch cow should have three per cent of her weight, as she is proportionably lighter than the ox, and part of the substance of her food goes to form milk. A fatting ox may be fed five per cent at first, four and a half per cent when half fat, and afterwards four per cent. This is independent of other feed. A grown sheep will take three and a third per cent of its weight in hay; to keep in good store condition. Animals in a growing state require most food, and it is very poor economy to stint them.—*The Plow.*

WHO IS CAPTAIN.—It is rumored that writs of *habeas corpus* are about being sued out to discharge the persons imprisoned at Waupun, on the grounds that they are not held in custody by any officers known to law. The present Commissioners are, Worth, now in Grant county; Bullen, who is in Kanosha; and Taylor, who is now in Madison. These being the only officers now legally charged with the custody of the prisoners, and they being at least sixty miles from the prison, it is certainly an important question.—*Madison Argus.*

☞ The Vienna Gazette, of the 10th ult., announced that his Imperial Majesty had been pleased to confer the order of the Iron Crown (third class) upon Chavalier Hulsemann, Austrian Charge d' Affaires in the United States. The paragraph, says the Vienna correspondent of the London Chronicle, has given rise to a good deal of comment in political circles, as the report has gone abroad that this government was dissatisfied with the conduct of its agent in America, and had recalled him.—Persons, however, who profess to be well informed, consider the above in the light of a reward for past fidelity, and at the same time as a pledge of future favors on the part of the Emperor, provided M. Hulsemann shall persevere in the same course, quietly pocket the annoyance, and avoid a breach with America. Kossuth's success over the water, is, of course very irritating to the powers at Vienna.

☞ A pebble cast into the Atlantic makes itself felt on the opposite shore. So it is with pebbles cast into the vast sea of New York Commerce; they make themselves felt to the remotest extremities of the country. Soon after Kossuth landed here, some hatter invented and issued the 'Kossuth hat.' We heard incidentally yesterday that Kossuth hats have been sold in this City, and sent throughout the Union, to the value of *half a million of dollars.* Manufacturers, moreover, were able to work up into this new shape, large quantities of material which they could not use in any other. Ribbon dealers furthermore found a ready sale for a great amount of ribbon which had gone out of fashion for other uses, and dealers in ostrich feathers also shared substantially in the new movement given to the waters of commerce by the incidental dropping of this small pebble. Very trifling causes sometimes make themselves felt to a great distance in very important results.—*N. Y. Times.*

Kossuth says;—'The chord of Freedom passes through the breast of all mankind, and whoever touches it elicits a sound of harmony—the harmony is in the chord, and not in him who touches it. There is no skill in the breeze which sweeps thro' the Æolian harp, and still a sweet harmony bursts from its vibration."

THE BOATS.—The ARROW is advertised for Cleveland and Erie to-morrow. The RUBY will probably leave for Sandusky to-day.

The J. D. MORTON will leave for Cleveland on Friday, if others succeed in getting through.—*Detroit Adv. 15th inst.*

☞ The Edinburgh papers report the death of Mr. Robert Blackwood, one of the eminent firm of publishers, in the 44th year of his age.

☞ THE LADIES, especially those who have favored No 235 with their custom, are notified that the cross-walks on the corner of East Water and Mason streets, will be kept clean, and that hereafter there will be no obstruction in the way of a visit to the Post Office, or the

FRIDAY.....MARCH 19.

[BY REQUEST.]

Read and Digest Facts.

The intelligent reader needs not to be informed that the age is one of unparalleled activity. Who that reads the popular publications of the time, and has traveled far from the home of his birth, is not startled by the announcement of new discoveries in Science and Art—discoveries that are unceasingly unfolded by scientific investigation and research. But since the days of the Revolution scarcely an attempt has been made by any one to show the origin and define the extent of human rights. Politics does not seem to have kept pace with its kindred sciences. It does not seem to be founded on the sure foundation of natural truth, nor yet armed with the true philosophy of mind. During our lives what discoveries have we made in legislation? What have we done toward the establishment of wise and just laws, and in the maintenance of their stability? Do we not pass laws and repeal them, and condemn to-day what we sanctioned yesterday? Are our legislators grounded on a proper philosophy of mind? Do they properly understand the nature of those beings whom they bind by laws? And are those laws in harmony with their nature?

These questions are of grave importance to us as a people, and concern both individual happiness and national existence; for it seems to be the destiny of every government which outrages humanity to fall. It seems to me that the truly great and noble among men are the first to transgress unjust laws, but are ever faithful to a higher Allegiance. If the above view is correct, the legislator is only the minister and expositor of Nature, and his duty is simply to conform to natural rights and truth. And all truth is natural truth,—all rights are natural rights, and all wrongs are natural wrongs. Our business is to perceive, for we cannot create. We cannot confer rights, nor can we create wrongs. We can only sanction and forbid, in consonance with natural law. If the statute law forbids that which Nature allows, it restrains human liberty. And if it enjoins a duty which Nature does not impose, it inflicts a tyranny upon man. Further, if it confer a right which Nature has not ordained, it robs some one or many of that which it confers, and works injustice among men. What I contend for is, that the law should be merely declaratory of natural rights and natural wrongs, and that whatever is indifferent to the law of Nature, shall be left unnoticed by human legislation.

All rights and duties are natural, and legal tyranny ensues wherever there is a departure from this symple principle. The question will be asked, How then shall we avoid this tyranny? What must we know, in order to arrive at justice and safety in human legislation? We answer, that we must know man's mental constitution and adaptation to the external world. We have but to know ourselves and our natural relations, and our grievances are at once redressed. The question will arise, How shall we know the true nature of man? But my limits will not allow me to analize the question, and I return to the true function of government. There is a natural necessity for government, arising from the disparity which exists in the powers and faculties of the different individuals of the human family. If a nation be constituted of men of high intellectual attainments, strong moral emotions, and moderate animal desires, such a people would be a law unto themselves, needing no coercive power, but would be urged by their own natural impulses to do right. They would be obedient to the law of their organization.

But the regulations of government must be adapted to men as they are. And we find a large share of the social body constituted of youth and infancy, periods of life when the passions are strong, and the intellectual and moral faculties have but little control. Their intellectual culture is not perfected, and they have not had the advantages of experience and reflection. They are defective characters, placed in the midst of society, and their restraint is necessary for the safeguard of its members. And the mental constitutions of the different adult members of the human family vary indefinitely. All are alike, but not equal. Inequality of power seems to be the rule of Nature. Hence government is necessary, in order that restraint may be imposed upon the actions of each individual in society—such moral restraint as is felt by a man having the best moral and intellectual endowment and culture. In plainer terms, government should fix such limits to individual action as are sanctioned by reason and natural morality. The great precept of Nature seems to be, that man shall pursue his own substantial happiness. Now, the man of the highest mental endowment and culture, naturally perceives and adopts that mode of moral and intellectual action which best subserves human happiness. His conduct is approved by reason and nature, and these are high authority. But the man of imperfect organization departs from this rule of action, and thus mistakes his way to his own happiness, and impairs the rights and injures the happiness of others. The protection of the fullest rights of enjoyment and the true exercise of the largest liberty, should be a function of government. A just government will impose no restraint upon man which his own moral nature and intellect do not sanction. A good and proper man will feel no restraint under such a government. There should be harmony between the law of government and his own mind. There is a framework in Nature, to which all human legislation must conform. If this be correct, the citizen under government has a just right to look above the written constitution, to a higher and a nobler work. And in this lies his protection against tyranny. He should not become a traitor to humanity, in order to render blind fealty to government. "Resistance to tyrants is obedience to God." We know that written constitutions are regarded by some with profound reverence, as if they were the offspring of Divine inspiration. We are taught that they are sacred and inviolable, and we are exhorted to mould all our actions to their test, and to punish every departure from their principles. This is right, if the constitution is right. Otherwise it is not. But the first exhortation should be to bring the written constitution to the test of the natural laws, and compare the constitution of government with the constitution of man, and see whether the former is founded upon the latter. The charter of man's rights and liberties is stamped upon his nature by the Great Author of the Universe. And the right of appeal to this great charter, man never can surrender, without being a traitor to himself and to the Creator's laws.

We should like to examine the right to adapt government to the constitution of man's nature, but limits will not allow.

"HOME TRUTHS."

Merton, Waukesha Co., March 3, 1852.

☞ The Louisiana State Convention met at New Orleans, on the 8th, and selected Cass Delegates to the National Convention.

Friends of Freedom! Read, Reflect and Act.

The *National Era*, of February 19th, contains an article upon the probable action of parties, and the policy of the friends of freedom, which is characterized by that clear foresight, and calm dispassionate reasoning, which belong peculiarly to the editor of that paper. After showing beyond a doubt, that both of the old parties will commit themselves, in their National Conventions, entirely to the policy of the Slaveholders, it proceeds as follows, in relation to the duty of the friends of Liberty:

"The great practical question then arises—Shall the voters of the United States, opposed to slavery, opposed to its ascendency in the Federal Councils, opposed to its control of the Federal Executive, opposed to its schemes of propagandism, in favor of divorcing it from the Federal Government, and restricting it to the States in which it exists, content themselves with a mere expression of their sentiments, or *form an organization, with a view to make them operative at the ballot-box?*

"Their sentiments are proscribed and denounced in their respective parties. They must abjure them, or expect to be treated as outcasts from political fellowship. Mr. Bayly, a member of Congress from Virginia, in a letter explaining the course of himself and his associates in introducing the Compromise resolutions into the Democratic Caucus, avows that the object was to exclude Free Soil Democrats. He could not exclude them by name, and the only mode of reaching them was by making a test, the acceptance of which by the Free Soil Democrats, would have been equivalent to the repudiation of their heresies; as the rejection of it would have been an act of self-excommunication. What failed in the Democratic caucus, will succeed in the National Democratic Convention; and what the Whig caucus adopted, can scarcely be rejected in the National Whig Convention. All anti-slavery sentiment will be voted a heresy, and those who entertain it must either abjure themselves or their parties. What will they do? If they abjure themselves, where is the hope of Freedom? What hope for themselves? What can they do for the cause of liberty in the camp of Slavery? They will be permitted to vote for Slavery, but not to participate in its triumph. Having placed the reins in its hands, they cannot expect to check or direct its march. They will have given power to a Tyrant to grind them in the dust.

There are men in the country who have long since cast aside the shackles of party.—There are whigs and democrats, whom party considerations cannot hold in relations where they must stifle or forswear their highest convictions. There will be an opportunity for those to unite in an effective organization during the next Presidential canvass. It is stated that a National Convention of the friends of Freedom, is to be held at Pittsburgh, sometime in June next, after the action of the old party Conventions shall have been announced. May we not hope that that Convention may lay down such a platform as American freeman can stand upon, and feel that they can act in harmony with the Constitution, in obedience to the democratic principle, with proper care for every public interest, with a strict regard to the rights of all the States, and with a paramount devotion to the cause of Freedom? It will be impossible, we think, to make even a tolerable demonstration, should the Convention attempt to marshal a party, or to set up candidates, on the single issue of Slavery, without regard to other questions.—Many are anxious to act against Slavery, and make the question of paramount consideration, but not to the neglect of other important questions.

We do not believe that one hundred thousand voters could be mustered on the simple issue of Slavery, as now presented; but were an organization formed, which should take the democratic principle as its central element and apply it fearlessly and consistently to all the questions relating to Intervention, Public Lands, Education, Elections of Officers, Governmental Expenditures, Tariffs, Class Legislation, and Slavery, it would be able, if not to affect decisively the result of the next Presidential election, to command such support as would make it thereafter a powerful element in the political world. It would attract to its standard democrats disgusted with the rule of the Slave Power, and the everlasting contradictions in which it has involved their party; Whigs, dissatisfied with the want of any fixed principles and with the time-serving tactics of *their* party; Land Reformers, who must see that little can be hoped for their peculiar views in political organizations swayed by the immovable Conservatism growing out of the complicate monopoly of Land, Laborers and Capital, prevalent in the South; Philanthropists, who have long labored in vain to introduce into the conflicts of parties ideas of Human Brotherhood, and to infuse into governments the spirit of Humanity. All these could act with such an organization, and discharge all their duties as citizens, in consistent obedience to Principle. There would be no conflict of duties, no clashing between Principle and Profession, no unworthy compromises, no contradictions. With equal regard for the rights and interests of all, on the ground of a common Humanity, of equal claims and dignity, such a party would possess the concentration, the power, and identity of Unity, with the comprehensiveness of Universality. It would be adapted to the solution and proper disposition of all political questions, each in its order, without discord or confusion.

But whether such a party be at present practicable or not, whether the Convention of the Friends of Freedom in June next, will attempt its formation or not, one thing is clear—a manly opposition at the ballot box to the candidates of Slavery, will be the duty of every voter who believes that Democracy and Despotism cannot both be in the ascendant in the same political and social system.

The famous picture gallery of the late Marshal Soult will be sold by auction at Paris in May. In addition to works of several of the great masters, it contains many of the best of Murillo, and of others of the Spanish school. When the old marshal was commanding in Spain he helped himself, *sans ceremonie*, to every painting of real value which he could find in chateau, palace, convent and church.

"Treat your wife," says Dr. Franklin in a letter to a young friend, "with respect, it will procure respect for you, not only from her, but from all who observe it. Never use a slighting expression to, or, even in jest, for frequent bandyings are apt to end in an angry earnest."

A new weekly paper, to be called the *Cotton Plant*, is shortly to be started in Washington, by Messrs. Wm. M. Burwell, G. G. Baylor and Col. J. S. Cunningham. It will advocate the great Planting and Commercial interests of the South—to urge direct trade with Europe, and the opening of a Continental market for cotton, and to labor for the physical resources of the Southern States. Price $2,00 per annum.

FIRE AT EAST TROY.—The store of E. H. Ball, at East Troy, was burned to the ground, early Thursday morning last. Nothing saved. Loss estimated from $5000 to $6000. Insurance on goods $3000, and on building $6000, in the North Western and Ætna Insurance Companies.

Suicide at Chicago.—Philip Collins cut his throat on the morning of Tuesday last, at Chicago. He was a native of Ireland, and had been for some time in ill health, which had affected his mind. He leaves a wife and two children.

Passengers at Chagres—Over 2000 California bound passengers arrived at Chagres on the 22d ult. The steamer Ohio, from New York and New Orleans, alone had over 1200.

☞ Alexander Dumas is writing his Memoirs for the *Presse*, in Paris. A critic says of him:

"Having mixed familiarly with all descriptions of society from that of crowned heads and princes of the blood, down to strolling players—having been behind the scenes of the political, the literary, and the theatrical, the artistic, the financial, and the trading world—having risen, unaided, from the humble position of subordinate clerk in the office of Louis Philippe's accountant, to that of the most popular of living romancers in all Europe—having found an immense fortune in his inkstand, and squandered it like a genius or a fool—having rioted in more than princely luxury, and been reduced to the sore strait of wondering where he could get credit for his dinner—having wandered far and wide, taking life as it came—now dining with a king, anon sleeping with a brigand—one day killing lions in the Sahara, and the next, [according to his own account] being devoured by bears in the Pyrenees—having edited a daily newspaper and managed a theatre, and failed in both—having built a magnificent chateau, and had it sold by auction—having commanded in the National Guard, and done fierce battles with bailiffs and duns—having been decorated by almost every potentate in Europe, so that the breast of his coat is more variegated with ribbons than the rainbow with color—having published more than any man living, and perhaps than any man dead—having fought duels innumerable—and having been more quizzed, caricatured, and lampooned, and satirized, and abused, and slandered, and admired, and envied, than any human being now existing—Dumas must have an immmensity to tell, and we fear that it will be mixed up with a vast deal of imagination."

Anecdote of William Wirt of Va.—In the early career of Mr. Wirt he was addicted to intemperate habits and was, as every friend supposed, a very hopeless, irreclaimable man. He was abandoned by almost every friend, and was so reduced that his presence was objectionable in the meanest establishment where rum was sold. On a certain occasion he had become so grossly intoxicated that he fell upon the floor of a rum hole insensible. The Proprietor very coolly dragged him out of the place and laid him in full length on the edge of the sidewalk.—It was in the city of Richmond, Va. The day was excessively warm, and the rays of the sun fell exactly upon the inebriate, who was totally unconscious of his situation. A young lady was passing the spot, and on noticing the exposed features of Mr. Wirt, stopped spread her handkerchief over his face and passed on. When he became partially sensible of his situation, a few hours afterwards, he discovered the handkerchief and the initials upon it made him aware to whom it belonged. That kind act made a reformed man, for he found that there was one living being that was interested in his fate. In after years, when Mr. Wirt had risen to an eminent position and was candidate for the Presidency of the U States' we met him and his gifted lady (the identical young woman who managed the handkerchief business when Mr. Wirt was in the "grog" trade) She never regretted her choice and Mr. Wirt never drank more.—*N. Y. Picayune.*

GREAT WESTERN

STOVE DEPOT!

Nos. 87, 89 and 91, East Water street,

MILWAUKEE.

THE subscribers having been appointed agents of the *PRESQUE ISLE IRON FOUNDRY*, (the largest Stove manufactory in the United States,) are prepared to offer to the trade, and to retail customers

A better article of Stoves

and at LOWER PRICES, than can be bought at any place west of Albany.

From an experience of ten years in the Stove business in Milwaukee, we have learned what kinds are best adapted to the wants of this country, and have no hesitation in saying, that in point of style, utility and durability, the

PRESQUE ISLE FOUNDRY STOVES

excel all others brought to this market. The designs and patterns are neat, and tasteful, and being run from the blast, are not as liable to crack as those run from the pig, for the reason that the latter receives one more melting than the former.

Among our Cooking Stoves may be found the LION and PRIZE, two Stoves that stand without a rival among the "Air Tights." The Lion is a diving three flue stove, with two tops, one for barrel or five pail kettles, and the other for boilers, ten-kettles, pots, &c; also, the KEYSTONE and CHAUTAUQUE FARMER, with elevated ovens. The Keystone is regarded by all who have seen it as the finest specimen of a cooking stove ever presented to the public, and the fact is attested by the large number sold.

The Chautauque Farmer, was designed expressly for the farmers' use, it having no inside or division plates, making the fire-place large and not liable to burn out.

Of the above mentioned Stoves we might give over 500 certificates, proving their good qualities, from persons who have used them; but as we guarantee them to be the best in use, we do not deem it necessary. We have also every variety of

Fremium and Double-Oven Cooking,

From No. 1 to 6; also a great variety of

AIR-TIGHT PARLORS!

of splendid patterns, with and without folding doors, together with an endless variety of

PLATE AND COAL STOVES,

all of which we respectfully request you to call and examine before purchasing.

TO THE LADIES.

By Letters Patent of the United States.

S. CRANE'S

PATENT COMPOUND SOAP.

WARRANTED to do no injury to Clothing, and to be the best Soap preparation in use. A half pound is all that is required for the washing of all that ten gallons of suds will soak, and *dispensing entirely with boiling*, which no other preparation PRETENDS to do, and the use of the WASHING MACHINE and RUBBING BOARD, thereby saving the expense of fires and the most severe labors of the washing day, and also the entire wear and tear of the Clothing (to say nothing of the hands,) in washing, which is frequently the most destructive to which clothing is subjected.

The Suds after the wash, is the best article for the cleansing of painted surfaces, wood work, oil cloth, carpets, iron railing, &c, that many ladies in this city who have tried it, ever saw.

Warranted the best Soap in use for removing grease spots from clothing, the cleaning and whitening of summer Hats, etc; excellent for bathing, especially in sickness, leaving the skin soft, clear and PERFECTLY CLEAN, and in washing, not making the hands sore like preparations containing soda.

Ladies! the above is no HUMBUG! as numerous testimonials of those who have used it will demonstrate, and to the truth of which the reputation of the subscriber is pledged. All he asks is that it shall be proven according to the directions accompanying each package. Ladies, try it.

Sold at most of the Groceries in the city.

A NEW ARTICLE!

JOHNSON'S CHEMICAL

HAIR INVIGORATOR,

To prevent baldness, and to restore the hair that has fallen off or become thin, and to cure effectually

Scurf or Dandruff.

Prepared only by S. JOHNSON, Jr; 161 East Water street, Milwaukee.

FOR TIME TO LET.

THE Invigorator is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c, which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the hardest hair into the most soft, healthy, glossy state; also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the Toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. nov21

H. N. DAVIS'S COLUMN
WAUKESHA.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the Age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY of NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system; while, under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging, and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since more than

75,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply fix the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will set on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Undoubted Character,

From all parts of the country could be given, sufficient to fill every column in this paper!

AN EXTRAORDINARY CASE,

which conclusively proves that

"Truth is stranger than Fiction."

CURE OF

RHEUMATISM, BRONCHITIS, AND DYSPEPSIA.

REV. DR. LANDIS, A CLERGYMAN

of New Jersey, of distinguished attainments and exalted reputation:—

SIDNEY, New Jersey, July 14, 1853.

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:—

For about *twenty years* I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. About *fourteen* years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. Further: In the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. In the whole pharmacopœia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and, (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE; IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS; AND MY RHEUMATIC AFFECTION HAS ENTIRELY CEASED TO TROUBLE ME. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, WITH HAPPY RESULTS, I BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,

ROBERT W. LANDIS.

DR. CHRISTIE'S

GALVANIC NECKLACE

Is used for all complaints affecting the Throat or Head, such as Bronchitis, Inflammation of the Throat, Nervous and Sick Headache, Dizziness of the Head, Neuralgia in the Face, Buzzing or Roaring in the Ears, Deafness, which is generally Nervous, and that distressing complaint, called Tic Doloreux.

DR. CHRISTIE'S

GALVANIC BRACELETS

Are found of vast service in cases of Convulsions or Fits, Spasmodic Complaints, and general Nervous Affections of the Head and upper extremities. Also in Palsy and Paralysis, and all diseases caused by a deficiency of power or Nervous Energy in the limbs or other organs of the body.

☞ Many hundred Certificates from all parts of the country of the most extraordinary character can be given, if required.

☞ No trouble or inconvenience attends the use of *DR. CHRISTIE'S GALVANIC ARTICLES*, and they may be worn by the most feeble and delicate, with perfect ease and safety. In many cases the sensation attending their use is *highly pleasant and agreeable*. They can be sent to any part of the country.

Prices:

The Galvanic Belt, Three Dollars.

GREAT WORK ON CIVILIZATION

This valuable work has just arrived at

C. OTT'S BOOKSTORE.

It is the work of the age. From a large number of liberal and highly complimentary notices of this work, from the religious and secular press, we only select the following:

"This admirable work is at length before us, and we hasten to inform our readers of the valuable addition, which has thus been made to the Literature of our country. The work is by far the most important of its kind, ever published in this country. It is in fact a complete library in itself, condensed and so arranged as to bring the whole question within the grasp of the humblest reader. It appears most appropriately at the present time, and will, no doubt, prove an instrument of great efficacy in the work of diffusing sound doctrines on the matters of which it treats."—*Truth Teller.* april 22

GRECIAN MANCHERONIAN DROPS

A sure and safe remedy for, and will positively cure *Sick Headache, Chills and Fever, Jaundice, Dyspepsia, Chronic Diarrhœa, Sea Sickness, Cholera, and Cholera Infantum,*

and restore a healthy action to the liver, without a particle of calomel, mercury, quinine or morphine entering into their compound. They do not purport to be a remedy for all manner of diseases that flesh is heir to, but experience warrants us in saying the above they will positively cure. They will also correct all derangement of the stomach, and relieve from those aches and pains throughout the system commonly called rheumatism. It is an excellent remedy for the Gravel, and as a Vermifuge or Worm medicine, there is none better.
